Introducing... our new Twins

Luna Twin Simple & innovative

- 400 kg bariatric solution: The same Luna model is used for standard and bariatric lifting: 1 or 2 units.
- Flexible design: Quick switch from standard 275 kg to bariatric 400 kg lift in minutes. No tools.
- **Tender winner:** Selected by Central Region Denmark, largest hospital construction project in Northern Europe.
- Cost saving investment for hospitals: One multi purpose Luna model for all your lifting needs.

New Luna Twin

5 minute installation. No tools.

- Mount the second Luna Twin on the track.
 - Lower one of the straps on the hand control, so both straps are equal in length.
- Attach the distance rod between the two Luna units.
- Connect the twin cable to the Luna units.
- Reset the system by pressing "STOP" and then press and hold "R" for 5 sec.
- Attach the distance bar on the straps. If needed, adjust the strap height with the hand control by pressing right or left.
- 3 Attach the spreader bar with the quick lock system.
- Weigh scale and additional side spreader bars for large patients are available as accessories.

With Luna Twin **room to room** transfer is also possible. Just slide the Luna Twin lift through the unique door connector from Ergolet .

Luna Twin
